Course and TA:	Effectiveness	Comments
POLI 211 (Prof. Robinson) - TA: Alejandra Gonzalez Mejia	Extremely effective	Ale was an incredible TA. She was an engaging section leader and continuously maintained a positive attitude. She was also very approachable and was always open to answering any questions. The latter also applied to her office hours. In general, Ale explained content in a clear manner, provided valuable feedback, and was instrumental in improving my understanding of the course content.
POLI 211 (Prof. Robinson) - TA: Alejandra Gonzalez Mejia	Moderately effective	Ale did not appear very comfortable at the front of class for sections, but was incredibly helpful when asked questions, whether that be in person or via email.
POLI 211 (Prof. Robinson) - TA: Alejandra Gonzalez Mejia	Extremely effective	I technically had both Alejandra and Fred as I was in the afternoon section, but I thoroughly enjoyed both of them! Both had a great understanding of the course and went out of their way to keep us engaged.
POLI 211 (Prof. Robinson) - TA: Alejandra Gonzalez Mejia	Very effective	I really appreciated Ale as a TA. I think she was very kind and approachable. She was always open to meet up or send help through email. I think the only thing was this course graded pretty strictly in my opinion. This isn't personal to Ale as she doesn't make the rubric, but I do wish the course was a little lighter on the grading. Otherwise, I really did like having Ale as my TA.
POLI 211 (Prof. Robinson) - TA: Alejandra Gonzalez Mejia	Extremely effective	Ale was amazing. She tried and successfully learned everyone's names. She would make the activities engaging and fun for everyone (which is impressive considering this was a Friday afternoon section!). Ale was also extremely helpful during office hours, and if I asked for feedback, she would break it down for me so I could use it in future assignments. I will really miss having her as my TA.
POLI 211 (Prof. Robinson) - TA: Alejandra Gonzalez Mejia	Slightly effective	She was not very helpful during office hours, although she was eager to help. Her advice was very general, hard to understand, and not useful. She had difficulty leading discussions and fostering a classroom environment where students wanted to be engaged.
